Subject: RE: Gold King Mine Response: Site-Specific Charging

I'll send a message out on this to a broader audience, but I just received clarification on this issue this afternoon.

All regions will use the Region 8 SSID: A8K9RV00.

Overtime: All regions are charging overtime on this response because an RP has been identified (the mine owner). PRC # 202BC6 should be used to charge OVERTIME ONLY.

Subject: FW: Gold King Mine Response: Site-Specific Charging

Got a call from upstairs asking for new codes to set up in PPL+..I am getting confused now since this is the latest info we've got so far...

Please coordinate with us before sending messages out of the Superfund Division. The instructions will come from us..

For now, we have not taken any action based on your latest email below.

Thanks.

Will do. Still waiting to hear back from HQ regarding SEMS.

Thanks!

Regional Comptrollers & Other Program Offices

Attached please find the instruction/guidance on how to ensure proper charging and tracking of payroll, contracts, and travel resources associated with the response to the Gold King Mine Release. While this may only currently affect some of you, I felt it would be prudent to share with all of you as some of your regional staff may be traveling to assist.

Please share with others as appropriate.

Thank you.
